You are now chatting with 'Luke'
you: Hi Luke
Luke: Hello there! Thanks for contacting Sales Chat.
May I please begin with your first name?
you: Matt
Luke: Hey Matt :) How may I assist you today?
you: I am looking to add some hosting for
personsofinterestbklyn.com
you: i noticed the deals
you: looks good
you: i already have a domain name though, is it
possible to waive the fee on it or extend it if I get a
hosting plan now?
Luke: Let me check for you. May I please have your
customer number and four digit pin?
you: and, is it possible to FTP and view the site before I
turn off the forwarding to the other hosting provider?
you: # 39005328
you: i forget the pin
Luke: Click here to find the four digit pin where it says
Call-in PIN in the GoDaddy account
you: 5253
you: are you looking up my account?
Luke: Yes...
you: thank you
Luke: You can ftp and view the site before changing the
DNS for your domain
you: excellent!
Luke: How many years did you want to go with the
hosting plan to take advantage of the sale pricing?
Luke: 10 years is the max and most do 5 years
you: If i get 2 it comes with the autorenewal at the
cheap rate, right?
Luke: The Economy hosting plan renews at
C$95.88/year
Luke: 2 years is C$119.76, 3 years is C$179.64 and 5
years is C$299.40 with the sale today
you: ok
you: and can you extend my domain since I wouldn't be
buying a new one?
you: i thought about it and i just don't need it
you: *but if i wanted to put another static site on this
host, would i be able to?
Luke: The Economy hosting plan is for 1 website only.
We have a Deluxe hosting plan which allows multiple
separate websites on one hosting plan
you: can you extend the domain?
Luke: Unfortunately not. The domains come from a
Registry that we pay to register the domains for you. I
can add the hosting for multiple websites for C$119.76
for 2 years, 3 years at C$179.64 and 5 years at
C$299.40 with a new free domain
you: ok, let's do the two years
you: same card that the site is on
Luke: Did you want a new free domain for a second
website in the future?
you: no thank you
Luke: Do you have a new expiration date for the Visa
ending with 1082?

you: 06/18
you: oh wait
you: steve gave me his other card
you: sorry
you: 4563 3100 2047 2431
you: 06/18
Luke: Okay, click here to add the credit card to your GoDaddy profile. Click "Add Payment Method"
you: ok, 2431 should be there
Luke: Thank you. Do you agree to the Universal Terms of Service, Privacy Policy and Hosting Service Agreements to process the order for you for 2 years at C$119.76?
you: yes please
Luke: I sent a confirmation email to wsmarks@msn.com
you: thank you
Luke: To set up the hosting, go here gateway.godaddy.com and click "Set Up". The cPanel username and password you create will also be your ftp info
you: ok
Luke: I also emailed you instructions for previewing your website
you: thanks for that
Luke: You're welcome :)
you: can you email the instructions to mattlucas@gmail.com
you: ?
Luke: Yes, sent to mattlucas@gmail.com
you: This has been a real pleasure...
you: um...
you: Is GoDaddy still pro-SOPA?
Luke: No
you: that's good
you: Thanks for everything again, I guess I'll be back if there's a problem
you: :)
Luke: You're welcome :) Also, the IP address for ftp is **107.180.51.42**
you: ah, gratz
you: username and pass
you: is same as cpanel?
Luke: Correct
you: can i use git/
you: ?
you: and ssh into it?
Luke: Here are instructions to Enable SSH
Luke: Git tutorial and basics
Luke: Are there any other questions I can assist you with today?
you: i am looking for the settings w/r/t ssh
you: oh cool
you: i see it
you: i can always reset that or use FTP later?
Luke: Yes
you: ok thank you again
Luke: Have a wonderful day!
Luke: Thank you for chatting with us. We value your feedback. Please click the "Close" button at top right to answer a few questions about your experience with us today.
